

Never-Seize Dry Bulk Manhole Adjusters

Convert your old style, rusted, seized-up, inoperable manhole adjusters to state-of-the-art, never-seize and easily adjustable BTI manhole adjusters. Eliminate the tools needed in the past like torches, pipe wrenches, hammers, and penetrating oil –

Saving you time and money!

Available in Stainless Steel or High-Strength Carbon Steel with Nickel Coating.

BTI's Never-Seize Dry Bulk Manhole Adjusters

Features and Benefits

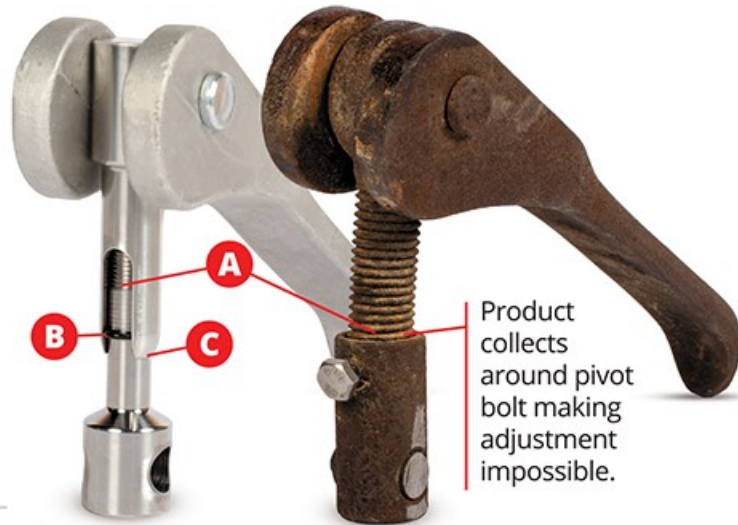

Guaranteed to keep your adjusters operating longer and working better.

- A** No exposed adjustment threads
- B** O-Ring Seal
- C** Built-in Scraper

Actual competitor's adjuster showing product build-up. BTI's Built-in Scraper removes the build-up so you can adjust your manhole cover to the proper tension.

BTI's Never-Seize Competitor

Product collects around pivot bolt making adjustment impossible.

Independent laboratories have certified that the unique design of the BTI Never-Seize Manhole Adjuster is stronger than industry standards and up to 35% lighter, saving you up to 10 lbs. per trailer.

Part Number	Description
BTM-EA-HS-1	Heil Manhole Service Kit – SS
BTM-EA-KS-1	Knappco Manhole Service Kit – SS
BTM-EA-HE-1	Heil Manhole Service Kit – Nickel Plated
BTM-EA-KE-1	Knappco Manhole Service Kit – Nickel Plated

The final solution to costly maintenance associated with manhole adjusters. BTI's Never-Seize Manhole Adjuster is guaranteed to keep your manhole adjusters operating for many years! The industry standard adjuster can fail within a year.

All BTI products are guaranteed to:

LAST LONGER. WORK BETTER.
