

# Campbell Fittings Inc.

301 South Washington Street  
Boyertown, PA. 19512

## CALIFORNIA PROPOSITION 65 DECLARATION AND WARNING

Dear Valued Customers,

This notice is to inform Campbell Fittings Inc. distributor customers that certain Brass or Copper based items produced or sold by Campbell Fittings Inc. may contain lead, which is a harmful chemical listed on California's Safe Drinking Water & Toxic Enforcement Act of 1986.

This Act, commonly known as Proposition 65 (Prop 65), establishes a list of chemicals which the state of California's risk assessment process has determined may present a risk of cancer, birth defects or other reproductive harm.

The Proposition 65 list of harmful chemicals can be found at:

<https://oehha.ca.gov/proposition-65/>

Products known to contain a listed chemical, like **lead in Brass** parts, must be clearly identified when selling to a California consumer with a clear and conspicuous warning. Campbell Fittings Inc. places a **WARNING** label on the outside of the cartons/packaging of those products we deem to have the potential of lead in the content.

Our Warning reads as follows:

<p style="text-align: center;"><b>California Prop 65</b> <b>WARNING</b></p> <p style="text-align: center;">This product contains lead, a chemical known to the State of California to cause birth defects or other reproductive harm. <b>Wash hands after handling.</b> Plumber: California Law requires that this warning be given to the consumer.</p>
----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Failure to notifying the consumer of the hazardous material(s) can result in significant penalties to the manufacturer, distributor and seller of these products. Please contact me directly should you require additional information or clarity on how to meet the Prop 65 notice requirements.

Sincerely,

  
Joseph P McGlynn  
Executive Vice President
