<b>Service Temperature [Max]</b>	65 °C 150 °F

Features and Advantages -**Features and Advantages**

- **Superior Static Protection!** - A properly grounded Voltbuster™ hose will not retain an electrostatic charge sufficient to create a propagating brush discharge. Hose material, using the embedded grounding wire, shows a charge decay time constant of < 1 second, based on independent lab testing.
- **Food Grade Materials** - Hose tube complies with FDA requirements. Grounding wire embedded in external helix to prevent material contamination.
- **Extra Thick Abrasion Resistant Single - Ply Polyurethane Tube** - Provides for longer hose life and lower operating costs versus rubber or PVC hoses.
- **Transparent Construction** - "See-the-flow". Allows for visual confirmation of material flow.
- **"Cold-Flex" Materials** - Hose remains flexible in sub-zero temperatures.
- **Easy Slide Helix** - Rigid helix design protects hose tube from wear; allows hose to slide easily over rough surfaces. Easy to handle.
- **Phthalate Free**
